PROFILE:

Award-winning scientist, educator, researcher, and subject matter expert with 20+ years of experience teaching for a higher education research institution. Published author of two books related to seismic activity and landslides in Puerto Rico and multiple peer-reviewed publications. Holds doctorate (PhD) in Geology. Brings track record of advising government officials and providing recommendations on landslide hazard, preparation, and risk reduction. Has conducted extensive research on interdisciplinary and socially relevant topics. Has presented for both academic and general public audiences.

BOOKS PUBLISHED:

Jaramillo Nieves, L.G., 2023, *[La actividad sísmica en Puerto Rico y la protección del patrimonio \(Seismic Activity in Puerto Rico and the Protection of Heritage\)](#)*, Funded by Humanities Puerto Rico and the *National Endowment of the Humanities*.

Jaramillo Nieves, L.G., 2018, *El terremoto en Puerto Rico: lecciones cien años después* (The Earthquake in Puerto Rico: lesson one hundred years later), Hato Rey, Puerto Rico, Publicaciones Puertorriqueñas. [ISBN978-1-62537-282-6](#)

EDUCATION:

January 1999-
December 2003

[University of Colorado, Boulder](#)

Doctor of Philosophy Degree in Geology

Remote sensing evaluation of the regional chemistry and element dispersion of porphyry copper deposits in the Silver Bell Mountains, Arizona.

Advisor: William Atkinson, Ph.D.

Awarded:

2003, **Bill Hiss Creativity Travel Award**

2000 and 2002, **Longley, Warner & Whalstrom Scholarship**

1999–2003, **American Geological Institute Minority Scholar**

1999–2002, **Alfred P. Sloan Fellowship**

Course offered as Teaching Assistant:

Introduction to Petrology Laboratory (GEOL 3020), Geological Sciences Department, College of Art and Sciences, University of Colorado at Boulder

August 1996-
December 1998 [University of Puerto Rico, Mayagüez](#)
11 credit hours, Master's in Science (Transferred to Doctoral Degree)
Advisor: Glen S. Mattioli, Ph.D.

Course offered as Teaching Assistant:
Geology for Engineers Laboratory (GEOL 4015), Geology Department, College of Art and Sciences, University of Puerto Rico, Mayagüez

August 1991-
December 1995 [University of Puerto Rico, Mayagüez](#)
Bachelor of Science Degree in Geology
Magna Cum Laude
Harry Hess Medal: Highest GPA in Class

PROFESSIONAL EXPERIENCE:

July 2016 -
present [University of Puerto Rico at Río Piedras](#)
[College of General Studies](#)
[Physical Science Department](#)
Professor

July 2010 –
June 2016 **University of Puerto Rico at Río Piedras**
College of General Studies
Physical Science Department
Associate Professor

August 2004 –
June 2010 **University of Puerto Rico at Río Piedras**
College of General Studies
Physical Science Department
Assistant Professor

Courses offered in the Physical Science Department, College of General Studies, University of Puerto Rico, Río Piedras:

- **Foundation of Great Changes in the Physical Sciences I** (CIFI 3003)
- **Foundations of Physical Sciences for Students in the Special Education and Grade School Education Program of the College of Education** (CIFI 3005)
- **Origin and Evolution of the Earth** (CIFI 3026), Team Teaching (Part of the course creator group)
- **Energy, Environment, and Conservation** (CIFI 3036)
- **Foundations and development of the physical sciences I and II** (CIFI 3055, CIFI 3065)
- **Interdisciplinary Topics in Physical Sciences: Development of Chemistry** (CIFI 4995)
- **Interdisciplinary Topics in Physical Sciences: Human aspects of geologic events** (CIFI 4995), **Course creator**. Currently revised as **Geologic Processes, Disasters, and their Effects on Society** (CIFI 4065)
- **Undergraduate Research in Physical Sciences** (CIFI 4996)

Courses offered in other departments, colleges, or schools by invitation:

- **Physical Geology (CINA 4147)**, Environmental Sciences Department, College of Natural Sciences, University of Puerto Rico, Río Piedras
- **Land use and management planning (CINA 4167)**, Environmental Sciences Department, College of Natural Sciences, University of Puerto Rico, Río Piedras
- **Epistemological foundations of Physical Sciences (ESGE 4186)** General Studies Program, College of General Studies, University of Puerto Rico, Río Piedras
- **Hydrogeology of Puerto Rico (GEOG 4041)**, Geography Department, College of Social Sciences, University of Puerto Rico, Río Piedras
- **Risk and Natural Hazards (PLAN 6003)**, Graduate Planning School, University of Puerto Rico, Río Piedras

1999- 2003

**US Geological Survey
Southwest Field Office, Tucson, AZ**

Geologist GS-09 (Performed role while pursuing graduate studies)
Supervisor: Floyd Gray

Described surficial deposits affected by erosion from active mine areas, enabling subsequent pollution and water quality studies. Identified alteration zones in the Silver Bell Mountains, Arizona using remote sensing techniques in the visible and infrared regions. Presented findings and techniques to Geological Society of America (GSA).

Refined and added identification criteria into database regarding alteration spectra in watersheds associated with mineralized and mined regions for environmental assessment (source, transport criteria, and mineral identification).

Assisted supervisor in preparing fiscal year project fieldwork by reviewing maps, aerial photos, and satellite images. Researched and compiled existing map information.

Contributed to drafting and editing the hydrologic framework of the US-Mexico Border.

2001

**Waterstone Environmental Hydrology & Engineering
Inc., Boulder, Colorado**

Contract

Translated hydrology reports and scientific documents from Spanish to English.

1995

**Waterways Experiment Station,
US Army Corps of Engineers, Vicksburg, Mississippi**

Summer Intern

Laboratory assistant

Develop granulometric analysis of selected areas along US East Coast.

1992-1993

**Seismic Network of Puerto Rico,
University of Puerto Rico, Mayagüez**

Data Analyst

Collection of seismic activity data from Puerto Rico and the Caribbean Plate.

PROFESSIONAL LICENSE:

Geologist in Training

**National Association of the State Boards of Geology,
ASBOG**

License Number 077-E

UNIV. OF PUERTO RICO, RIO PIEDRAS CERTIFICATIONS:

Spring semester
2019

**Online module: Certification on the Construction of
virtual learning environments**

Center of Academic Excellence

Office of Academic Affairs

Fall semester
2017

**Online module: Training on personnel matters for
department directors and personnel committee**

Fall Semester

(Cert. No. 032, Year 2002-2003, University Board)

2024

RESEARCH TRAINING AND CERTIFICATIONS:

December 2020

**Broader Ethical Considerations for Hazards and Disaster
Researchers**

Natural Hazards Engineering Research Infrastructure (NHRI),
Natural Hazards Center, University of Colorado, Boulder.

December 2020
present

**Social and Behavioral Responsible
Conduct of Research**

CITI Program, (ID 58378)

July 2019

CITI Conflicts of Interest - Conflicts of Interest

July 2023

CITI Program, (ID 108342)

September 2019-
September 2024

**Social & Behavioral Research - Basic/Refresher -
Social & Behavioral Human Research**

CITI Program, (ID 58345)

GENERAL, TECHNICAL AND SPECIALIZED SKILLS:

- Experience in grant submission to the National Aeronautics and Space Agency (NASA), the National Oceanic and Atmospheric Administration (NOAA), the National Science Foundation (NSF), the National Endowment for the Humanities (NEH), the Spencer Foundation, and Humanities Puerto Rico.
- Experience in compliance with federal regulations for research with human subjects, use of vertebrate for research and substance/material management for research.

- Knowledge in writing and management of research agreements such as Memorandum of Understanding (MOU) and Material Transfer Agreement (MTA), in addition to protocols for the participation of human subjects in research.
- Knowledge in geoscience programs and software, including MODFLOW, ENVI, ArcView, Arc Info, and QGIS.
- Experience with academic platforms such as Blackboard, Edu 2.0, and Moodle.
- Experience managing digital platforms and peer journal indexing such as Latindex, REDIB, and Open Journal Systems (OJS).
- Public speaking

LANGUAGES:

- Spanish (Native Speaker)
- English (Second language, fluent orally and written)
- French (Novice)

HIGHER EDUCATION ADMINISTRATIVE EXPERIENCE:

Spring, 2019-
Spring 2023

Assistant Dean of Research
Office if the Dean for Graduate Studies and Research
University of Puerto Rico, Río Piedras

The position required the management of \$500,000 institutional funds for research, implementation of the Government of Puerto Rico [Law 60](#) on Campus, the compliance with annual reports to the federal government, considered in the Carnegie classification of the campus as R2: Doctoral University- High research activity, among other duties.

Spring, 2018-
Spring, 2019

Interim Chair
Department of Physical Sciences
College of General Studies
University of Puerto Rico, Río Piedras

Served as the chief executive and administrative officer of the department, as described in Article 25, Section 25.3.3 of the [University of Puerto Rico General by Laws, 2022](#)

Spring 2015 -
Summer 2019

Editor in Chief, [Umbral Journal](#)
College of General Studies
University of Puerto Rico, Río Piedras
Interdisciplinary peer-review journal
ISSN 2151-8386

Fall, 2011-
Summer, 2013

Associate Dean of Academic Affairs
College of General Studies
University of Puerto Rico, Río Piedras

The position required the supervision of tasks related to the campus accreditation with the Middle State Commission of Higher

Education for 2012, college educational assessment and yearly academic program, among other duties.

2009-
Summer 2011

Engineering Program Coordinator

College of General Studies
University of Puerto Rico, Río Piedras

The position required the orientation on the requirements of the curriculum in Electrical, Mechanical and Computer Engineering, outreach, and the hiring of professors, among other tasks.

2008-
2009

Umbral Project Director

College of General Studies
University of Puerto Rico, Río Piedras

The Umbral project is a digital platform dedicated to the transdisciplinarity and proposes an activity of constant exchange and creation of knowledge. The platform has the purpose to promote the creation of a knowledge network and intellectual collaboration.

CONFERENCE COORDINATIONS:

November 20-22,
2008

**Earth Sciences and Human Activity
Conference**

International Year of Planet Earth Conference

University of Puerto Rico, Río Piedras
Conference Coordinator

www.yearofplanetearth.org

April 18-25, 2007

Gaia and Climate Change, International Congress

University of Puerto Rico, Río Piedras
Program Coordinator

NATIONAL AND INTERNATIONAL COLLABORATIONS:

2023

National Science Foundation, NSF
Panel Reviewer

2022

Evaluator, Fifth Grant Competition, Sloan Scholar Mentoring
Network

<https://sloan-scholars.ssrc.org/page/grants>

2020- present

Editorial Board Member, Umbral Journal

<https://revistas.upr.edu/index.php/umbral>

2020

Evaluator, Third Grant Competition, Sloan Scholar Mentoring
Network

<https://sloan-scholars.ssrc.org/page/grants>

- 2014 – 2020 Evaluator for the National Fund for Innovation and Scientific and Technological Development (FONDOCyT, for its acronym in Spanish), International System of Higher Education, Science, and Technology, Dominican Republic.
- 2009-2011 Editor for a Special Issue in the Environmental Geochemistry and Health, 3rd Hemispherical Conference on Medical Geology
Citation: [Jaramillo-Nieves, L.G. and Finkelman, R., Eds., 2012, Special Issue: Current Research in Medical Geology and Environmental Geochemistry, vol. 34, no. 2, Environmental Geochemistry and Health, ISSN: 0269-4042 \(Print\) 1573-2983 \(Online\)](#)
- 2005 Collaborator with the [Iberoamerican Program for Science, Technology and Development \(Programa Iberoamericano de Ciencia y Tecnología para el Desarrollo, CYTED\)](#)

PROFESSIONAL AFFILIATIONS:

- American Geophysical Union (AGU)
- Geological Society of America (GSA)
- Seismological Society of America (SSA)

ADVISORY CONSULTING EXPERIENCE:

- 2020- 2024 **USGS and the Puerto Rico Seismic Network Liaison**
 Served as an expert advisor in the response and recovery phase resource meetings with the Government of Puerto Rico after the seismic sequence of December 2019 and January 2020.
- 2019- 2022 **Advisor**
 Leveraged subject matter expertise to advise UPR-Río Piedras Chancellor on developing University’s response plan and preparation to earthquake, leading to its execution, impacting ~14,000-person community.
 Advised Dean of Graduate Studies and Research on emergency action plan for earthquake and pandemic.
- 2020 **Facilitator**
 Delivered educational sessions for Banco Santander employees, EcoExploratorio, Alzheimer’s Association of Puerto Rico. Wrote article for Medical Technologists Association.

COMMUNITY SERVICE

- 2020- 2024 **Volunteer**
 US Geological Survey Volunteer, USGS
 Including serving as the USGS and the Puerto Rico Seismic Network Liaison

STUDENT MENTORING:

Fall 2024

Settlement patterns after a disaster. Looking at the record from transdisciplinarity.

1918 Earthquake, Añasco, Puerto Rico

Alex Palermo Gómez

Departamento de Sociología y Antropología

Facultad de Ciencias Sociales

Universidad de Puerto Rico, Río Piedras

Profesora de Curso Investigación subgraduada en Ciencias Físicas (CIFI 4996)

Fall 2019 -
Spring 2023

Characterization and Formation of Beach Rock in Puerto Rico.

Kevián A. Pérez Valentín

Doctoral Thesis

Department of Environmental Sciences

College of Natural Sciences

University of Puerto Rico, Río Piedras

Committee Member

Fall 2016 -
Spring 2022

The Impact of Human Migration on Land Use and Water Quality

Marianne Cartagena Colón

Doctoral Thesis

Department of Environmental Sciences

College of Natural Sciences

University of Puerto Rico, Río Piedras

Committee Member

Spring 2014-15

Research Project: Relevance of the 1918 Earthquake in Puerto Rico for the present

Joel Soto Melecio

Undergraduate Research Experience

Program of General Studies

College of General Studies

University of Puerto Rico, Río Piedras

Committee Chair

Spring 2014-15

Research Project: Relevance of the 1918 Earthquake in Puerto Rico for the present

Elenis García Marcano

Undergraduate Research Experience

Program of General Studies

College of General Studies

University of Puerto Rico, Río Piedras

Committee Chair

Spring 2010-11

Yabucoa Valley Agricultural Reserve: Implication analysis and recommendation for use and planning

Angeliz Encarnación Burgos

Master's Thesis

Planning Graduate School
University of Puerto Rico, Río Piedras
Committee Member

Fall 2008-09
Spring 2010-11

Groundwater and flow modeling of the Yabucoa Aquifer, Puerto Rico: a case study for the tropics.

Ernesto Olivares and Angeliz Encarnación Burgos
Research assistants
Planning Graduate School
University of Puerto Rico, Río Piedras
Committee Member

K-12 TEACHING EXPERIENCE:

Alliance for Minority Participation Summer Program

Summer, 2007
Summer, 2006
Summer, 2005

Luis Muñoz Rivera High School, Utuado, Puerto Rico
Luis Muñoz Marín High School, Yabucoa, Puerto Rico
Josefina León Zayas High School, Jayuya, Puerto Rico

Institute 2000

Spring and
Summer 2006

Geology and Environmental Problems Workshop
University of Puerto Rico, Río Piedras

CURRENT RESEARCH:

July 2023
Present

Flooding maps of the 1918 Tsunami in Puerto Rico based on historical archives

Synopsis: Construction of flooding maps using primary reference from digitized historical archives in Puerto Rico.

Expected outcomes: Flooding maps due to 1918 Tsunami for coastal municipalities in Puerto Rico (Añasco, Mayagüez y Aguada)

Collaborator: Seismologist Roland La Forge, Golden Colorado

Research Assistant: Alex J. Palermo Gómez, Undergraduate, Sociology and Anthropology Department, College of Social Sciences, University of Puerto Rico, Río Piedras

Role: Principal Investigator

COMPLETED RESEARCH:

July 2021-
June 2023

Seismic activity in Puerto Rico and the protection of cultural heritage

Grant: Puerto Rican Endowment for the Humanities (FPH, Spanish Acronym), National Endowment of the Humanities (NEH)

Project number: FPH-33-2021

Funds: \$46,102

Synopsis: Dissemination of the history of seismic events in Puerto Rico, the memory of disaster and the effects of seismic activity on the cultural heritage in Puerto Rico through radio programs.

Collaborators: Dra. Ramonita Vega Lugo, History Program, Department of Social Sciences, College of Arts and Sciences,

University of Puerto Rico, Mayagüez; Eng. José Izquierdo Encarnación, PORTICUS, Puerto Rico; Dra. Libia González López, Department of Humanities, College of General Studies, University of Puerto Rico, Río Piedras; Dra. Jenniffer Santos Hernández, Center for Social Research, College of Social Sciences, University of Puerto Rico, Río Piedras; Dra. Nadja Ríos Villarini, English Department, College of General Studies, University of Puerto Rico, Río Piedras; Dra. Mayra Jiménez, School of Architecture, University of Puerto Rico, Río Piedras; Dr. José J. Colón Morera, Department of Social Sciences, College of Social Sciences, Universidad de Puerto Rico, Río Piedras; Arq. Eliot Santos Negrón, School of Architecture, University of Puerto Rico, Río Piedras.

Products: Digital materials of all radio programs and their allocation in digital repositories, Digital Book, Web page: [Seismic activity in Puerto Rico and the protection of cultural heritage](#)

Role: Project Director

July –
December 2019

One community at a time: Local History, Regional Geology, and Social Science as a Foundation for Resilience in Communities in Puerto Rico after Hurricane María

Grant: American Geophysical Union (AGU)

Funds: \$9,836

Synopsis: Research and service project for the resilience of communities in Puerto Rico after hurricane María.

Collaborators: Lindsay Ann Davis, USGS, Dr. Fernando Briones, Univ. of Colorado, Boulder, Dr. Erin Leckey, Univ. of Colorado, Boulder, and Dr. Ryan Vachon, Univ. of Colorado, Boulder

Product: Documental and conference and presentation at the AGU Fall Meeting 2019

Role: Co-Principal Investigator

2014 - 2018

Research on the relevance of the Puerto Rico 1918 Earthquake for today's society

Synopsis: Research on the importance of the earthquake of 1918 in Puerto Rico through the study of historic documents.

Product: Book publication, August 2018 and presentation at the GSA Annual Meeting 2018

Role: Principal Investigator

Summer 2011

Study of mass wasting (Landslides) related to the geology and hydrology of areas in Barranquilla, Colombia

Summer Fellowship for Overseas Research

Grant: *Iniciativas de Investigación y Actividad Creativa Subgraduada, iNAS*, (Research Initiatives and Undergraduate Creative Activities) and the Department of Education for the development of research at the undergraduate level.

Funds: \$4,563.95

Synopsis: Analysis on the mass wasting status in Barranquilla, Colombia

Collaborators: Dr. Rafel Guardado Lacaba, Instituto Metalúrgico y Minero, Moa, Cuba y Esq. Priscila Celedón Consuegra, Barranquilla, Colombia

Product: Report on the landslide in Barranquilla Colombia

Role: Principal Investigator

2008-2010

Groundwater and flow modeling of the Yabucoa Aquifer, Puerto Rico: a case study for the tropics

Grant: Institutional Funds for Research

Funds: \$24,964.00

Synopsis: Construction of a groundwater model for the Yabucoa Valley using mathematical models (MODFLOW) and regional geology

Product: Groundwater model of the Yabucoa Valley as a first version after the previous USGS resistivity groundwater model.

Role: Principal Investigator

Jaramillo Nieves, L.G., “La educación general y el desarrollo del pensamiento: De la deriva continental a la teoría de tectónica de placas”, *9no Encuentro Internacional de Educación y Pensamiento*, Ponce, Puerto Rico, April 16-18, 2008

Jaramillo Nieves, L.G., “Casos seleccionados en Puerto Rico para la discusión de movimientos de masas e inestabilidad de talud” (Selected cases from Puerto Rico for the discussion of mass movement and slope stability), International Seminar: “*Estudio de la peligrosidad y gestión de riesgos por movimientos en laderas inestables*”, sponsored by UNESCO, CYTED, and INTER, Managua, Nicaragua, November 12-16, 2007

Jaramillo Nieves, L.G., “Inestabilidad de laderas: aspectos científicos y planificación” (Slope Stability: scientific and planning aspects), International Seminar: “*Estudio de la peligrosidad y gestión de riesgos por movimientos en laderas inestables*”, sponsored by UNESCO, CYTED, and INTER, Managua, Nicaragua, November 12-16, 2007

Jaramillo Nieves, L.G., Lithosphere, biosphere, and other spheres: between the Earth and evolution, 2007, International Congress: Gaia and climate change, University of Puerto Rico, Río Piedras, April 19-21, 2007.

Jaramillo Nieves, L.G., Remote sensing evaluation of regional chemistry and element dispersion of porphyry copper deposits in the Silver Bell Mountains, Arizona, 17th Caribbean Geological Conference, Geology Department, Univ. of Puerto Rico, Mayaguez, July 17-21, 2005, San Juan, P.R.

Jaramillo Nieves, L.G., Consideration of natural disasters in the Caribbean: geologic factors and implications for planning, International Seminar of Natural Disasters and Emergencies, Santo Domingo, Dominican Republic., March 17-18, 2005.

Jaramillo Nieves, L.G., Geology and physiography of Puerto Rico, Workshop for Inspectors in the Ground Water Injection Program, Environmental Protection Agency (EPA), Experimental Station, San Juan, Puerto Rico, December 2004.

POSTER PRESENTATIONS:

Jaramillo-Nieves, L.G.; How I managed to talk about disasters to the general public, Science and Society: Science Communication Practice, Research, and Reflection II Session, American Geophysical Union Fall Meeting, Virtual Meeting, December 11, 2020.

Jaramillo-Nieves, L.G.; Briones, F.; Davis, L.A.; Leckey, E.H.; Vachon, R., One Community at a Time: Local History, Regional Geology, and Social Science as a Foundation for Resilience in Communities in Puerto Rico after Hurricane María, AGU Fall Meeting, San Francisco, December 9-13, 2019.

Jaramillo Nieves, L.G., “El terremoto en Puerto Rico, lecciones cien años después, el uso de la historia puertorriqueña para acciones de prevención en comunidades de Puerto Rico” (The 1918 earthquake in Puerto Rico, lessons one hundred years later. Using Puerto Rican history for preventive action in communities of Puerto Rico), II Symposium of Disaster Risk Management and Coping with Climate Change, in XII International Convention on Environment and Development, Havana, Cuba, July 1-5, 2019.

INSTITUTIONAL FUNDS AS PRINCIPAL INVESTIGATOR:

Summer, 2011

Summer Fellowship for Overseas Research

Granted by the *Iniciativas de Investigación y Actividad Creativa Subgraduada*, iNAS, (Research Initiatives and Undergraduate Creative Activities) and the Department of Education for the development of research at the undergraduate level.

Study of mass wasting related to the geology and hydrology of areas in Barranquilla, Colombia

Funds: \$4,563.95

2008-2010 **Groundwater and flow modeling of the Yabucoa Aquifer, Puerto Rico: a case study for the tropics.**
UPR Institutional Funds
Funds: \$24,964.00

EXTERNAL FUNDS AS SUBAWARD:

June, 2019 **Project Biology with X-Rays Lasers**, The Research
present Foundation of the State University of New York, Dr. Edward Snell (PI), Dr. Lorna G. Jaramillo Nieves (Sub recipient PI) Managed as Assistant Dean of Research
Funds: \$80,000 annually

EXTERNAL FUNDS AS PRINCIPAL INVESTIGATOR/PROJECT DIRECTOR:

July 2021- **Seismic activity in Puerto Rico and the protection of cultural heritage.**
Puerto Rican Endowment for the Humanities (*FPH*, Spanish Acronym), National Endowment of the Humanities (NEH)
Project number: FPH-33-2021
Funds: \$46,102

June, 2019 **Conference Travel Fund**
Sloan Scholars Mentoring Network, SSMN, Social Science Research Council
Funds: \$1,500

May, 2019 **Project One community at a time**, Celebrate 100 Grant,
American Geophysical Union
Funds: \$9,836

June, 2018 **Conference Travel Fund**
Sloan Scholars Mentoring Network, SSMN, Social Science Research Council
Funds: \$2,054

FELLOWSHIPS AND SCHOLARSHIPS:

2003 **Bill Hiss Creativity Travel Award**
Department of Geological Science
University of Colorado, Boulder

2000 and 2002 **Longley, Warner & Whalstrom Scholarship**
Ph.D. Thesis Support

1999–2003 **American Geological Institute Minority Scholar**
Fellowship granted by the American Geological Institute for Minority Groups enrolled in a Master and Doctoral degree.

1999-2002

Alfred P. Sloan Fellowship

Fellowship granted by the Alfred P. Sloan Foundation to outstanding students for full tuition expenses.

AWARDS:

2020

Citizen's Award for Exceptional Service

U.S. Geological Survey

2003

Best Poster Presentation

Remote Sensing evaluation of element dispersion characteristics of porphyry copper deposits in the Silver Bell Mountains

Geological Society of America

Cordilleran Section, 99th Annual Meeting

Puerto Vallarta, Mexico

1996

Harry H. Hess Award

Highest General Point Average (GPA)

Geology Department

Commencement Ceremony

University of Puerto Rico, Mayagüez

1995

Paper Award AGU

Sector collapse in island arc volcanoes and implications for hazard assessment: a digital topographic and bathymetric investigation of Qualibou Depression

American Geophysical Union Annual Meeting Paper Contest (Second Place)

1991

London International Youth Science Fortnight Fellowship (LIYSF), United Kingdom

Founded in 1959, LIYSF aims to give a deeper insight into science and its applications for the benefit of all mankind and to develop a greater understanding between young people of all nations.

1991

42nd International Science and Engineering Fair (ISEF), Orlando, Florida

Geomorphological Changes in the Northern Coast Between Punta Cangrejos and Punta Vacía Talega in Loíza After Hurricane Hugo in 1989.

American Geological Institute, AGU (Second Place)
